A G Universal to Double Aluminium Extrusion Production and secure Rs.20 Cr. Order for PVC Conduit Pipes from Transline Technologies Ltd.

By Agency-A G Universal Limited, a leading name in the industry, is delighted to announce a major stride in its growth journey. The company is expanding its production unit for aluminium extrusion/profile, with plans to double its production capacity by the end of this year.

This ambitious expansion is a response to the increasing demand for A G Universal's top-quality aluminium extrusion/profile products across diverse industries. The decision underscores the company's commitment to meeting customer needs while maintaining its hallmark standards of excellence.

In another exciting

development, A G Universal is proud to reveal that it has secured an order valued at approximately Rs.20 Crores. This order entails the supply of PVC conduit, flexible conduit pipes, power cables, and Cat-6 cables to Transline Technologies Ltd, a prominent player in the technology and services sector, for their projects at Indian Railways. The supply of this substantial order is scheduled to commence in September 2023 and will be completed within a swift

45-day timeline.

Commenting on the development, Mr. Amit Gupta, MD of the A G Universal said, "We are thrilled to be chosen by Transline Technologies Ltd. as the trusted partner for this sizable order, one of the largest yet in A G Universal's history, reflects the growing confidence & trust customers has in the Company as a reliable supplier of the top-notch pipes & materials and also reaffirms A G Universal's commitment to deliver highest quality, meeting the stringent requirement of various committees".
